

# NZ BADMINTON ACADEMY

Funminton puts the fun in Badminton.

We've taken fundamental skill development and hidden it inside a learning environment that's disguised as a game.

It's a social opportunity to become competent at the skills that will enable you to play a regular game against your friends, family and eventually club level players. Evenings alternate between these fun activities and regular badminton games so as to see how the skills fit into the game.

Come join the fun! It is a casual club, designed for non competitive players who wish to make new friends and enjoy the game.

Open to everyone.
